

Student Poster Session at the Idaho Mining Conference

Monday, October 26 at Boise Centre

This student poster session gives emerging researchers an opportunity to showcase their work and share new ideas related to the mining industry. Presenters will speak with industry professionals, academics, and fellow students while gaining valuable exposure and feedback on their research.

- **9:00 AM**
 - Student Poster Session presenters assemble in the registration area
- **9:30–11:30 AM**
 - Students are to be present at their posters to field questions and discuss their topics with conference attendees and Poster Session Judges
- Scholarship awards will be presented at Monday's Day 1 Conference Luncheon.

Posters may cover a range of disciplines and topics, including:

- Geology, hydrogeology, geochemistry, engineering, environmental science
- Sustainable mining practices – extraction technologies – communications
- Environmental stewardship – environmental studies – remediation technologies
- Other issues shaping the future of mining

How to Submit a Student Poster Session Abstract

By October 16, 2026, fill out, download, and send the following Poster Abstract Submittal information to Dale Kerner at dale@integratesources.com and CC: imc@mineidaho.com with Subject: IMC Student Poster
